| isk Date id'ed 10. | Risk Category | Risk Title | Risk | Consequence | Mitigations (Actions) | Probability | Impact | Risk | Delivery of Risk Strategy |
| Mar-25 | People | NED Succession Planning | Not being quorum at meetings and not having a wide representation geographically of Cambridgeshire and the appropriate diversity. In addition, not having the essential skills on the board to govern effectively. | Unable to run board meetings, and the AGM. Unable to maintain the appropriate local knowledge in each area of Cambridgeshire and as a consequence our reputation could be adversely affected in relation to how we are seen by professionals and the public. In addition, inadequate skills could affect the governance of HW in terms of scrutiny and challenge. | I.Skills Audit 2. Succession planning (possible subcommittee, to focus on recruitment plan, recruitment and training) | 3 | 3 | 9 | The board to have a discussion around skills audit and succession planning at the next development session in April 2025. |
| 2 Mar-25 | Funding | Devolution | The local authority start look inward, and focus on only statutory duties. It may cause loss of funding within the VCSE. | Loss of some funding due to non ring-fenced funding, less project work available to allow us to have more flexibility. Other VCSE organisations will suffer as a result of district councils closing, and may stop services as a result, this can affect our signposting operations. | HW have a strong reputation in the county, through health and partners all want HW involved in their work. HW is a statutory service and LA must fund their work, albeit different HW get different funding levels. | 2 | 4 | 8 | Although devolution is currently low risk to HW, other VCSE organisations are likely to dissolve or services reduce in capacity or stop altogether. HW do rely on partner organistions to support our signposting service and in addition the public will suffer the most The funding may be reduced as a result, and although this is not happening for a couple of years, we need to have the changes on our radar and monitor the risk, which is why this will stay as AMBER for the foreseeable future. |
| 1 Sep-24 | Information Technology (IT) | Cyber Attack | Cyber security may be a risk, attack on organisation via email or into our cloud server | Personal Data Breaches, personal data or confidential data falling into the wrong hands, high costs to the organisation to fix | All staff to be trained in data and IT cleansing including maitaining good security Cyber insurance in place | 3 | 3 3 | 9 | Staff should have regular bi-annual training in cyber security. Risk will change to green once training in place. Still waiting for training. |
| 4 Mar-24 | Legal | GDPR compliance | The organisation's systems and processes do not meet the standards required by data protection legislation | Non-compliance risks fines, damage to reputation and loss of confidence by staff, commissioners and public. | | 1 | 3 | 3 | Independent Data Protection Officer in place. Regula review of system and processes to ensure compliance. <i>Lead Director will be the CEO. CEO to</i> <i>meet with independent officer</i> . New database sourced – started 1st Feb 2025 |
| Mar-24 | Stakeholders | Political volatility | Change of national and local political commitment to Healthwatch | Future of organisation under threat. | Clear demonstration of outcomes and impacts. New CRM will contribute to the impact reporting New strategy will measurable outcomes | 2 | 3 | 6 | The change in funding requires an act of parliament. |
